Experience

Freelancer

Front-End Developer

May 2023 – Present

- As a Front-End Developer, I helped my clients to translate their ideas and designs into existing websites.
- Created personal portfolios, landing pages, and updated existing websites based on clients' requests.
- Maintained existing websites using different CMS platforms such as Wordpress and HubSpot
- Offered tutoring services to students and created code along tutorials in Youtube.

Asia DTWords 24/7 Philippines Inc.

Digital Specialist (Intern)

September 2022 – December 2022

- As a Digital Specialist, I participated in the training using Salesforce.
- Handled beginner tasks such as integrating new contents into existing websites and image optimization for better performance.
- Conducted content enrichment tasks such as converting designs into web components, landing pages, etc.
- Contributed in the migration team, mainly SEO related tasks and localization of existing websites.

Cobra Itech Services Corporation

Front-End Developer (Intern)

May 2022 – August 2022

- As a Front-End Developer, I designed and developed the website for the company and the CEO's personal portfolio.
- Maintained, managed and updated the content of the company's learning platform (created assignments, quizzes, and grading system)
- Participated in the redesigning and redeveloping websites of the company's clients.
